REMARKS

SOURCE

The ADLERSHOF (N 56/K 04) airfield is not occupied by a Soviet Air Force unit. It is in a poor condition; the former testing installation (wind tunnel and engine test stands) are dilapidated. German workers are now engaged in erecting a board fence around the field. Air force motor vehicles were not observed at the field or in the vicinity.

 Comments: The statements on the condition of the airfield are considered credible. Information on the occupation of the field is lacking. According to previous reports, a technical unit of the Soviet Air Force is assumed to be stationed in ADLERSHOF. This report does not indicate whether this unit is still there.
